

**Dear Hiring Manager,**

I am writing to express my interest in a position within the technology field. I have recently completed my Bachelor of Science in Information Technology at the University of the Free State, with a strong focus on data analytics, database management, and software development.

Throughout my studies, I developed both technical and critical-thinking skills that I am eager to apply in a dynamic and professional environment. I have a solid foundation in designing and developing software solutions, analysing data to drive insights, and managing databases efficiently. These skills, combined with my ability to work independently and within a team, make me a strong candidate.

I am a fast learner, adaptable, and genuinely passionate about using technology to solve real-world problems. I thrive in environments that challenge me to grow, and I am committed to contributing positively to any organization I join.

Thank you for considering my application. I would appreciate the opportunity to further discuss how my background and enthusiasm for technology can benefit your team.

**Kind regards,**  
**Nomakhwezi Malusi**
